

Women in Mathematics session

- Presentation of the recently launched International Mathematical Union Committee for Women in Mathematics.

Marie-Françoise Roy (chair of the committee)

- Roundtable discussion on the gender gap in mathematics.

Moderation : Carol Wood (USA).

Panel : Francesca Acquistapace (Italie), Anna Blaszcok (Pologne), Charu Goel (Allemagne), Noa Lavi (Israël), Vicky Powers (USA), Marie-Françoise Roy (France).

The roundtable has been managed with three questions to which every participant has answered :

- 1) How is the situation for women in mathematics in your country ; can you present a few relevant statistics in different grades of the career ?
- 2) Are there initiatives in your country to reduce the gender gap in mathematics ?
- 3) From your own experience do you have facts illustrating the gender gap ? Can you formulate recommendations to a female PhD student entering the academic career ?
