

La conservation pérenne : Exegi monumentum aere perennius

YVES DESRICHARD

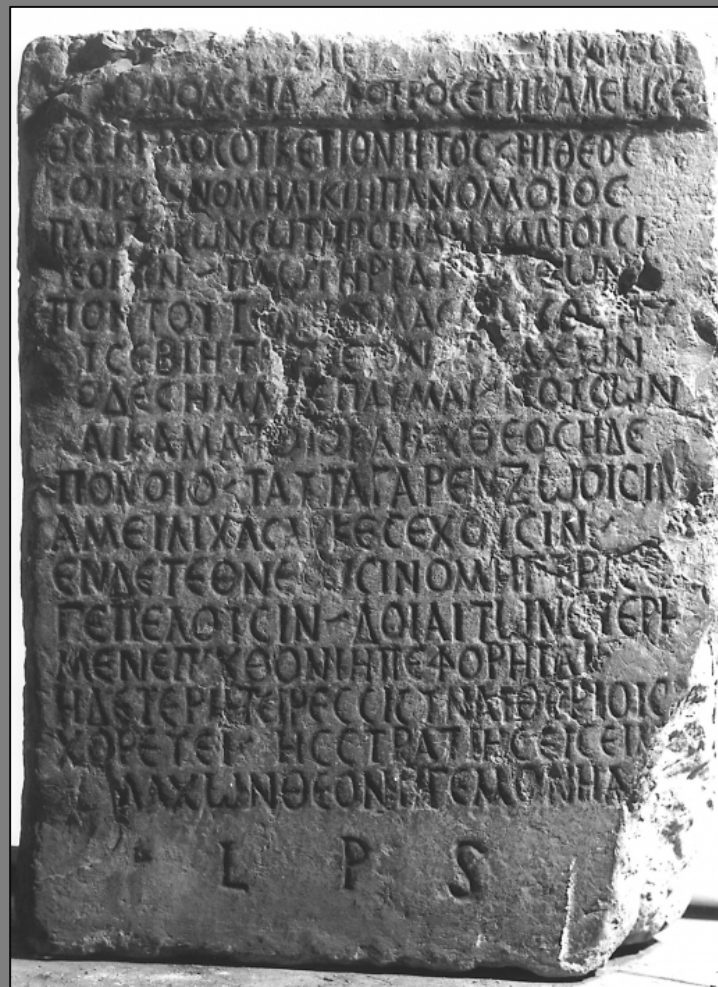

Marseille, Journées RNBM, 20 Novembre 2023)

Quod senior loquitur omnes consilium putant

Ab uno disce omnes

Exegi monumentum aere perennius

Cotidie est deterior posterior dies

Nascentes morimur, finisque ab origine pendet

Quidquid agis, prudenter agas et respice finem

Non progredi est regredi

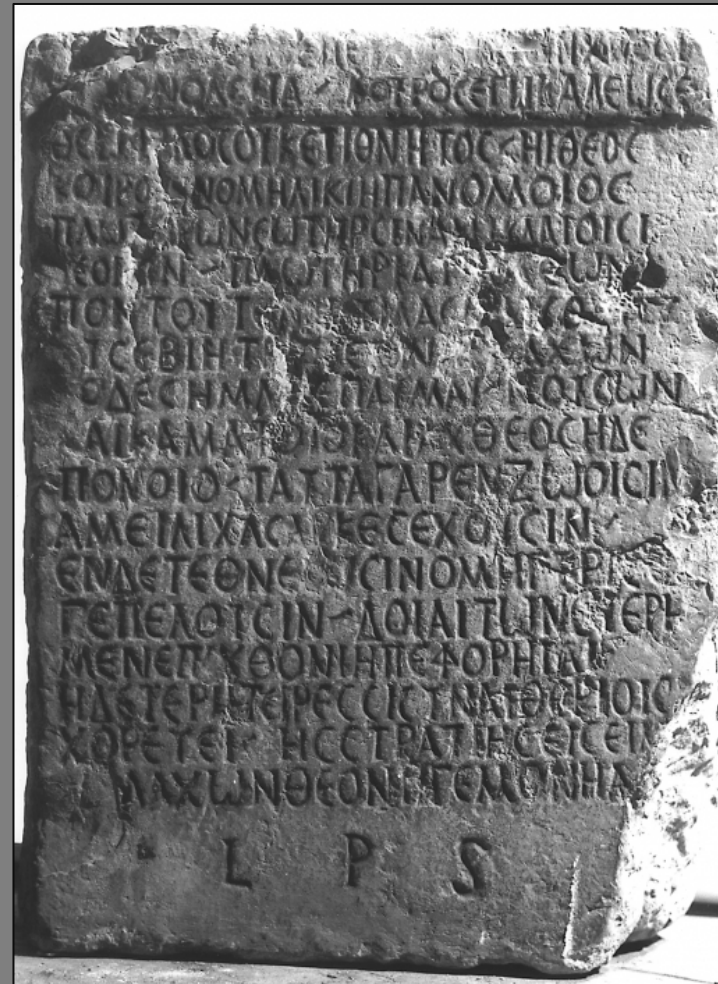

Legere enim et non intellegere negligere est

Locum sibi posuit

Motus in fine velocior

Acta est fabula

Renzo Tosi
